

Lesson 15: Putting It All Together

Overview

- Combine all lessons into one workflow from bias to review.

Key Concepts

- Bias and levels come before triggers.
- Risk rules keep you consistent.
- Review and iteration build edge.

Framework

- Weekly bias and watchlist.
- Daily level map and session plan.
- Execute with confirmation and defined risk.
- Review with R metrics.

Checklist

- Bias confirmed.
- Levels mapped.
- Trigger validated.
- Risk and target defined.
- Journal updated.
