

Lesson 2: Candle Intent and Multi-Timeframe Alignment

Overview

- Learn to read candle intent and align bias, setup, and entry timeframes.

Key Concepts

- Candles only matter at key levels and in the right session.
- Large bodies show intent; wicks show rejection.
- Confirmation reduces false signals.

Framework

- Define bias on H1 or H4.
- Find a clean level.
- Wait for a signal candle on M15.
- Enter after confirmation or retest.

Checklist

- Level and session aligned.
- Signal candle shows intent.
- Confirmation present.
- Stop beyond invalidation.
