

Lesson 9: Indicators as Confirmation, Not Crutches

Overview

- Use a minimal indicator set to confirm structure and momentum.

Key Concepts

- EMA reacts faster; SMA smooths trend.
- RSI and MACD confirm momentum shifts.
- ATR calibrates stop size.

Framework

- Structure first, indicator second.
- Confirm trend with MA slope.
- Use RSI or MACD for momentum.
- Enter on price action trigger.

Checklist

- Structure aligned with MA trend.
- Momentum confirmed.
- Trigger from price action.
- ATR checked.
